The DEVRIENDTS

The Devriendts are from Ray Honea and his son Ed Honea of Tucson, Arizona. The birds go back to Devriendts brought into the Tucson area in the early 1970s'.

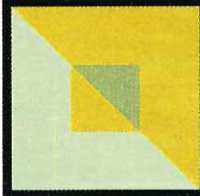

The source is Galaxy (Gold Bank, Loser, and the 49er). A pair was brought in at the same time frame also by Frank Hittle from Dewey in Md. The Dewey pair were also from the best, the cock 422nva71 a mealy is son of 3286408 Belg 60 from Yonge Slimmen & 3685 Tam 68 a Galaxy hen from Gold Bank and a daughter of 49er.426 nva 71, the hen, is a daughter of 948 fvc 65 bred by Gene Hearl, and 22 Tam 65 bred by Galaxy Loft from Big John & 1005 Tam 58, from 4118 F 55 4135 F55.

The Honea Devriendts that Jeff Smith is concentrating on are out of the 114 ccaz 81 a very super flyer 1st 400, 1st 500, 2nd 400, 2nd 500, & 3rd 600. The other super bird is the 656 ccaz 83 bred by Ed Honea, flew in one season 1st 600, 1st 500, 3rd 500 and top 10 in another 400 & 500.

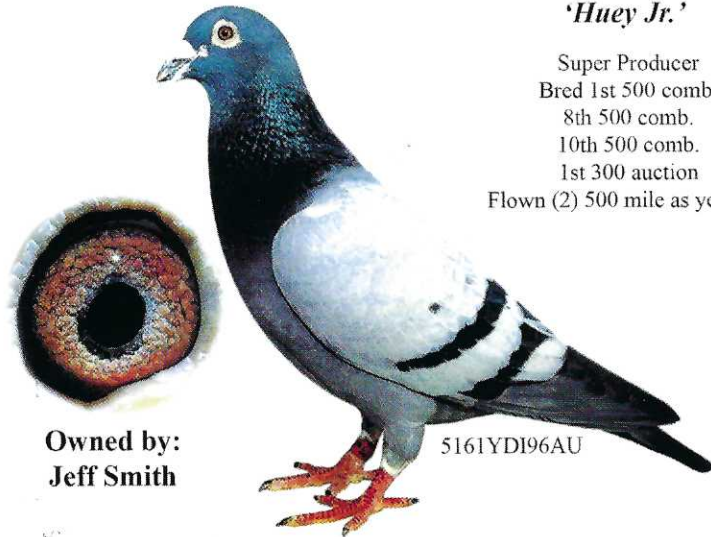

A later bird 548 soc 85 brought in by Bill Richardson was also of the Galaxy lines of Fats & The 49er blood. 548 was mated to 114 and produced some of Jeff's best breeders.

There are also the birds of Milt Gross of Pa. and Paul Vegeate of Michigan these lofts also sent in Devriendts that made this family of Devriendts what it is.

Smith-Calia-Janssens, Janssens
Powerful birds that include distance
 Blood of Bright Eyes, Diamond Cock, Lady Blue

The Calia Janssen birds were brought in by Jeff in the late 1980s and early 1990s . He personally visited and selected from the Calia lofts. He handled most all of the great champions. The Calia Janssens flew well from the beginning, and flew well short to long (100 to 600 miles). The best Calia bird was Diamond Lady ;she bred winners with every bird she was mated to and is the foundation of Jeff's present Janssen based and Janssen crossed families.

Successful racing crosses have been with other Janssen (mostly Ganus 969 & Continental Class), a Peeters cock (from Deigo Armando's full sister and Argus belg. 85 5020644 ,and most recently some Aardens from C.B.S. Some of the birds from the Calia family were Golden Boy 1304 MTZ 83 a son of Pure Gold & Pink Lady, The Concord Hen 3278 MTZ 90 from Diamond Cock & Jewell, Double Pop son of 4440 MTZ 88 & 0447 MTZ86 half brother & sister from Popeye. Two more were Fat Boy 4290 MTZ 89 from Brutus & Emerald and Red King 45MTZ 91 son of Lehi King & Red Rose.

These birds really made a big impact since their introduction and still do to the present.
